**Fees to perform the inspection for inflow sources (Dye Testing) along with televising (CCTV) of sewer laterals are as follows;**

- \$175.00 with a minimum of 7-day notice
- \$275.00 with 7 days or less notice or if the test is scheduled to be done after 2:00 pm on a weekday. Testing is completed during regular business hours.
- If private lateral exceeds 100 feet in length, an additional fee of \$.50/foot will be due after the inspection is complete and the exact footage is determined.
- A copy of the lateral televising video will be provided on a USB Flash Drive for an additional fee of \$15.00.
- The Authority will maintain a copy of the video inspection for a period of three (3) years on file.

### **DYE TESTING . Fee Schedule**

In the event that televising of the lateral has already been performed within a prior three (3) year period, the only mandated inspection is the basic dye test for direct sources of inflow, such as downspouts, area drains, etc. The cost for this inspection only is;

- \$50.00 with a minimum of seven (7) day notice (Regular business hours only)

Authority Office must receive the application and payment prior to the scheduling of the inspection. Upon receipt, the inspection will be scheduled. The owner or representative may request the work to be completed after 2:00 pm on weekdays at a cost of \$75.00 (dye test only).

The basic Dye Test is meant to identify any direct illegal connections to the system and/or problems with vents, cleanouts, etc. The dye test must be performed by RTSA personnel.

### **LATERAL TESTING**

The CCTV lateral inspection is mandated by the RTSA Rules and Regulations for each property transferred or sold unless such an inspection has already been performed on the lateral within the prior three (3) year period. In those cases, lateral televising is not mandated, however, the Authority makes no representation that the lateral condition has not deteriorated since the previous inspection. Even though a lateral inspection may not be mandated, upon request, the Authority will provide an updated inspection of the lateral upon receipt of the applicable fee. The fees outlined on Page 1 of these instructions, RTSA personnel perform the lateral inspection work.

Should the applicant choose to use a 3<sup>rd</sup> Party firm to televise the lateral, please contact the Authority office in advance for details as the required work and the associated fees to be imposed by the Authority for administrative and any associated field costs.

### **EXCEPTIONS**

Except for conditions listed above, the property **MUST** pass the basic dye test inspection for direct inflow sources and the lateral televising inspection. Structures failing the inspections will require corrective action to remedy the circumstances. When the inspection can **NOT** be performed prior to the closing due to weather, or defects are identified that can **NOT** be addressed prior to the closing date, the following procedures apply:

- If the inspection can **NOT** be performed due to weather conditions and the closing date cannot be altered, the applicant may apply for a temporary Document of Certification. RTSA Management must approve ALL reasonable requests for time extensions.
- The temporary certification includes a deposit in an amount mutually agreeable to all parties, including RTSA, seller, buyer and closing agent. The funds agreed upon will be escrowed by the closing company/agent.
